621 Blue Painter's Masking Tape

Technical Data

Product Description:

This product is a high performance masking tape for general industrial, construction and do-it-yourself use. The acrylic adhesive system will not dry out and lose holding power and the product will cleanly remove from most surfaces for up to 21 days. The 621 product works on drywall, glass, hardwood floors, wood trim, and a variety of other surfaces. The most typical use is paint and window masking. Application of the product and preparation and nature of the substrate are factors which will affect the product performance. The end user must determine its suitability for use.

Product Properties / Characteristics:

	Nominal Results
Adhesion to Steel: PSTC 1 oz./in.	20.0 to 22.0
Tack Level:	High
Tensile Strength: PSTC 31 lb./sq. in.	25
Elongation (%): PSTC 31	8 %
Thickness: PSTC 33	5.6 mils (nominal)

The values listed above are averages determined by standard production testing procedures. The suitability for use shall be determined by the user for the particular application.
